

# nanovib® « toucan » lifting tool for grates and drain covers lift

*The 1st ergonomic tool for lifting grates buffers and drain covers whilst keeping a straight back !*

## USE

° Loosen and lift all drain covers with hole or slot, hinged covers, grates...

## RISK PREVENTION

° **Prevention of risk of bad posture :**

- Unlike traditional methods ,the cover lifter, does not require the user to bend their back to loosen covers. It respects natural physical curves and so reduces back strain
- The tool is used in a position with a straight spine which eliminates strain to the lower back

## PRODUCT BENEFITS

° **Strength :**

- high strength tubular steel handle

° **Ergonomics :**

- Ergonomic grip: several possibilities for grip
- Improves comfort for user

° **Product highlights :** 3 tools in 1 for moving all types of buffers / grates :

- (1) « beak » end for buffers
- (2) « T-shaped » end for grates
- (3) Striking surface : to loosen grates/covers

## INSTRUCTIONS FOR USE

- Strike the cover with the striking surface to loosen the grate/drain cover
- Insert the tool in the slot of the grate/cover
- Lift grate/cover by levering upwards
- Pull grate/cover to remove it
