

Two material 30cm Italian sickle

Easy to handle

USE

° For pruning, clearing undergrowth, clearing paths or making bundles of branches.

PRODUCT BENEFITS

Strength

- ° Reinforced fibre-glass handle
- ° Hardened stainless steel blade (50-55 HRC) : does not rust

Ergonomics

- ° Three material ergonomic handle with shield and non-slip buffer
- ° Elastomere non-slip grip: comfortable hold

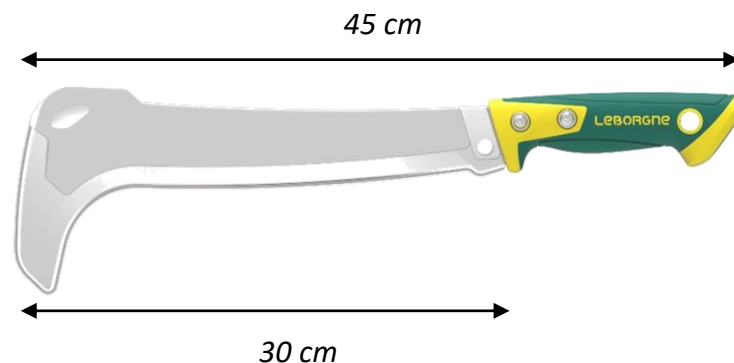

Product highlights

- ° Cutting edge sharpened ready for use: quality cutting
- ° Blade with Teflon antifriction coating : prevents blade from sticking and makes penetration in wood easier.

- ° Adjustable PVC holder : protects blade and guards against cuts
- ° Hanging hole : easy storing in linear display by the handle

Safety recommendations

- ° Sharpen the tool regularly
- ° Always sharpen with a file or sharpening stone from inside to outside and both sides. For the most effective sharpening, follow the original angle.
- ° Wear goggles, gloves and protective clothing.
