

22 cm two material Paris sickle

Powerful
cutting

USE

° For pruning, clearing undergrowth, paths or for making bundles of branches .

PRODUCT BENEFITS

Strength

- ° Reinforced fiberglass handle
- ° Hardened stainless steel blade (50-55 HRC) : does not rust

Ergonomics

- ° Three material handle with shield and buffer to prevent slipping
- ° Non-slip elastomere grip : extra comfort

Product highlights

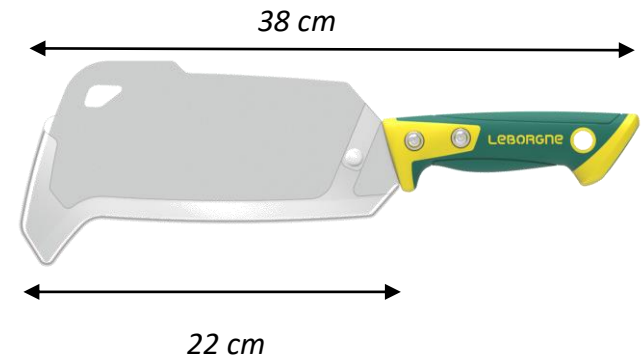

- ° Cutting edge sharpened ready for use: high quality cutting
- ° Blade with antifriction teflon coating : reduces sticking of blade and ensures good penetration of blade into the wood.

° Adjustable PVC pouch : protects the blade and reduces risk of cuts.

° Hole for hanging : for linear display by the handle

Safety recommendations

- ° Sharpen tool regularly.
- ° Sharpening should always be carried out with a file or a sharpening stone from the inner side to the outer side and the two sides. Follow the original angle for greater efficiency.
- ° Wear goggles, gloves and protective clothing.
