

22 cm two material double-edged sickle

2 in 1 :
sickle + hatchet

USE

° For pruning, clearing undergrowth, paths or for making bundles of branches .

PRODUCT BENEFITS

Strength

- ° Reinforced fiberglass handle
- ° Hardened stainless steel blade (50-55 HRC) : does not rust

Ergonomics

- ° Three material handle with shield and buffer to prevent slipping
- ° Non-slip elastomere grip : extra comfort

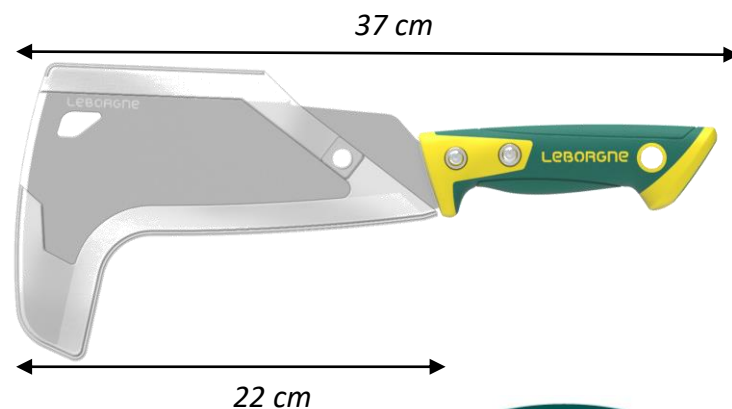

Product highlights

- ° Cutting edge sharpened ready for use : high quality cutting
- ° Blade with antifriction teflon coating : reduces sticking of blade and ensures good penetration of blade into the wood.
- ° 2 in 1 sickle + hatchet : one side sickle for pruning one side : hatchet for splitting

- ° Adjustable PVC pouch : protects the blade and reduces risk of cuts.
- ° Hole for hanging : for linear display by the handle

Safety recommendations

- ° Sharpen tool regularly.
- ° Sharpening should always be carried out with a file or a sharpening stone from the inner side to the outer side and the two sides. Follow the original angle for greater efficiency.
- ° Wear goggles, gloves and protective clothing.
